### FEATURES

- Silenced Weather Proof Canopy

- The Hyundai DHY11KSE is a three phase diesel generator with a maximum output of 9kW. Designed for domestic or professional use, the DHY11KSE is powered by an 11hp HY380 diesel engine and is equipped an AVR alternator to produce clean energy. This means that any sensitive electronic equipment, such as televisions, PCs and laptops, can safely be powered by the DHY11KSE.
- The DHY11KSE can be started manually by using the key, or connected to an ATS (Automatic Transfer Switch) system. An ATS system will automatically detect a loss of power from the mains, turn your DHY11KSE on automatically, and then turn it off again when power returns from the mains.
- Housed in a weather-proof "silenced" canopy, the DHY11KSE produces only 65dB @ 7 metres which makes it a quiet standby generator which won't interrupt you at home or work.
