### PRODUCT DESCRIPTION

The KJ Digital series of diesel generators provides a much quieter, more efficient and longer service life machine, for applications where you need safe and economical electrical power.

**Cleaner Power:** The engines used in the KJ series incorporates the TVCS combustion system which improves air/fuel mixture, resulting in cleaner emissions

**Dependable Power:** The brushless, self-excited type alternator is designed to deliver high quality power

**Quieter Power:** Sound levels at full load and no load are minimised due to world renowned Kubota technology

**Increased Safety:** The engine is protected against any abnormalities within the oil or cooling systems, and all rotating parts are enclosed in a sturdy enclosure

**Easy to Use:** Digital control panel makes the set easy to use

**Simple Maintenance:** Oil, water and filters are located on one side of the machine for ease of maintenance
